

II. Claims 15-27, drawn to the generation of a candidate specific application, classified in class 705, subclass 1.

III. Claim 28, drawn to evaluating the entire application process, classified in class 705, subclass 1.

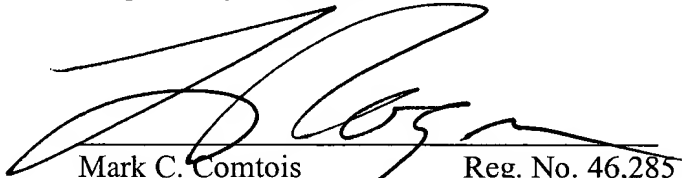

The Applicant **elects group 1 containing claims 1-14**, without prejudice or inference, for the purpose of advancing the prosecution of the application.

### REMARKS

The Office Action has subjected the application to a restriction/election requirement. The Applicant has elected group 1. The Office Action has also suggested claims 10 and 13-14 are subject to a double patent rejection. The Applicant fail to see the applicability of double patenting with regards to these claims and as such will address the actual rejections if presented.

The Applicant looks forward to the early allowance of elected claims 1-14 in group I.
